# DW4018
Wall panel controller Bticino

The DW4018 is a flush mount wall panel controller designed to work in combination with the R2 amplifier. It can be installed in a separate zone, and gives the possibility to select the desired audio source and adjust the volume for the zone that it's applied to. The connection between the amplifier and the controller is made by using standard UTP CAT5 cabling with RJ45 connectors.

Applications:

· Corporate spaces
· Residential

System specifications:

Control	RS-485
